公司简介

ABOUT COMPANY

Guangzhou Huake Biotechnology Co., Ltd.
—Dedicated to Pet Nutrition and Health, Leading a New Era of Scientific Pet Care

Corporate Profile
Located in the core area of Guangzhou National Hi-Tech Industrial Development Zone "Intelligence City," Guangzhou Huake Biotechnology Co., Ltd. was founded in 2019 by a team of seasoned biotechnology experts. As an integrated R&D, manufacturing, and service provider for pet health solutions, the company is committed to enhancing pet life quality through technological innovation and building a "human-pet symbiotic health ecosystem."

Scientific Research Capabilities
We have established an "industry-university-research-application" integrated innovation platform, forging strategic partnerships with top-tier institutions including:

Chinese Academy of Sciences Guangzhou Branch
Guangdong Institute of Microbiology
South China Agricultural University
Jinan University
Collaborating with industry organizations such as the World Pet Association (WPA) and Guangdong Pet Industry Association, we drive standardization and technological breakthroughs in pet nutrition and health.

Core Technical Team
Gathering elite talents in biomedicine, animal nutrition, and pharmaceuticals:

- 3 Ph.D. holders (Animal Nutrition, Microbiology)
 - 3 Master's degree holders (Food Science, Bioengineering)
 - 3 Senior Engineers (Pharmaceutical Engineering, Automation Control)
 - 2 Licensed Veterinarians (Clinical Nutrition & Disease Prevention)
- Forming an end-to-end R&D pipeline from fundamental research to product commercialization.

Intelligent Manufacturing System
Operates an internationally certified 100,000-class GMPC fully automated production base featuring:
• Smart Production System: Flexible manufacturing of multi-dosage forms (soft chews, tablets, softgels, liquids, powders, pastes)
• Precision Testing Center: CNAS-accredited laboratory matrix
• Quality Control System: Compliance with 12+ international standards (GMP, FDA, ISO, SGS)
Ensuring full traceability from raw materials to finished products.

Global Presence
Providing ODM/OEM services worldwide with product portfolios including:
• Functional Nutraceuticals: Joint care, gastrointestinal support, coat & skin care, muscle enhancement, allergy prevention
• Veterinary Support Products: Post-operative recovery, immune boosters, premium protein supplements, calming aids
• Customized Health Solutions: Senior pets, breed-specific formulations
Serving 30+ countries/regions across North America, Europe, and Southeast Asia, with annual capacity exceeding 500 million units.

Corporate Vision
Upholding the philosophy of "Empowering with Technology, Accompanying with Health," we continuously invest in:
• Building pet nutrition databases and precision nutrition algorithms
• Developing bioactive compound extraction technologies for enhanced bioavailability
• Creating cloud-based pet health management platforms for personalized nutrition programs
Striving to become a global innovation engine in pet health, enabling every pet to enjoy
